Valvola costantemente aperta in posizione di riposo. Chiusura mediante immissione di aria compressa nel cilindro pneumatico.

Cilindro e pistone: in lega di alluminio.

Corpo: normalmente in alluminio.

Caratteristiche costruttive: come per i tipi "SD" (TN 2014) e "SC" (TN 2015).

Normally opened valve. Delivery of compressed air to the pneumatic cylinder closes the valve.

Cylinder and piston: aluminum alloy.

Valve body: normally aluminum.

Construction features: as per types "SD" (TN 2014) and "SC" (TN 2015).

Vanne normalmente ouverte. Fermeture de la vanne par admission d'air comprimé dans le cylindre pneumatique.

Cylindre et piston: en alliage en aluminium.

Corps de la vanne: normalement en aluminium.

Caractéristiques constructives: comme pour les types "SD" (TN 2014) et "SC" (TN 2015).
